Natural Gas ESG and Sustainability

1. EEI-AGA Version 2 Template – Environmental, Social, Governance (ESG) Metrics

- Transparent
- Investor-Driven
- Industry-Specific
- AGA Gas Metrics focus on Methane for Gas Utilities
- <https://www.aga.org/policy/natural-gas-esgsustainability/>

2. Natural Gas Sustainability Initiative (NGSI)

- Next Step
- Demonstrate sustainability of natural gas *across supply chain*
- Starting with methane intensity
- Goes beyond emissions reported to EPA – includes emissions below reporting thresholds – aligns with ONE Future

aga_natgas

The American Gas Association, founded in 1918, represents more than 200 local energy companies that deliver clean natural gas throughout the United States. There are more than 74 million residential, commercial and industrial natural gas customers in the U.S., of which 95 percent — more than 71 million customers — receive their gas from AGA members. Today, natural gas meets more than one-fourth of the United States' energy needs.
